

PATTERN MANAGER EXAMPLE HOW TO MANAGE COMPLEX SITUATIONS

1

2

3

4

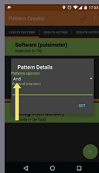

TO MONITOR DAILY ROUTINES AUTOMATICALLY

Let me always know when the weather forecast predicts rain with the probability higher than 50% for the period when I have tennis game planned

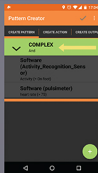

If I am close to my car between 7 and 7:15 am, provide me information about the traffic situation for both of the directions to the office

5

6

7

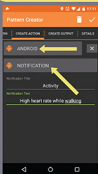

8

TO COMPLY WORK PROCEDURES AUTOMATICALLY

If the driver has spent more than 15 min in a traffic jam, notify him to report the situation to dispatcher immediately

TO CONTROL THE ENVIRONMENT (IoT) AUTOMATICALLY

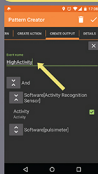

If I leave the house in the evening, switch off all devices in the kitchen

9

10

11

12

TO DEFINE PERSONAL RULES AUTOMATICALLY

If I am sitting for more than 1h in the office and my average heart rate was below my average heart rate for the morning, notify me
